

**Your partner
for food production efficiency**

Excellent release • Chemical resistance • Abrasion resistance

TPO polyolefin food belts

The Chiorino TPO (Thermoplastic Polyolefin) belts are ideal for **sticky food processing** and for **abrasive foodstuff**.

The TPO's **perfectly smooth surface** guarantees **excellent release**, reducing cleaning operation and increasing machine efficiency.

Chiorino TPO belts are suitable for cooling tunnels, as they perform perfect balance between cooling properties and correct release.

KEY FEATURES	BENEFITS
Perfect release of any sticky food product	▶ High production efficiency Optimized cost of ownership
High chemical & food oils/fats resistance	▶ Resistance to sanitization agents Easy to clean
High resistance to abrasion	▶ Suitable for applications with plastic scrapers Long service life
